ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

Date/Time June 18, 2001

Site Contact(s) Kent Dorr

Phone 966-6034

Regulatory Contact Dave Kruchek **Phone** 966-6728

Agency CDPH&E

Purpose of Contact Document Building 881 walk-down on June 18, 2001

Discussion

| Area | Item/Issue | Resolution | Responsibility/ |
|-------|---|--|---|
| R201A | Determine extent of piping to be removed above the process sink | White tape was placed at two places to delineate the highest extent of inlet pipe removal at the process sink. The lower extent is not an issue. Mr. Kruchek concurred with the removal Photos will be taken. | N/A |
| R121 | Determine the extent of piping removal associated with the vacuum pumps in the northeast corner | The upper extent of piping removal was designated with white tape, except for the southeast pump While everyone agreed to the disconnect at the flange, it couldn't be marked because it was in the Contaminated Area Photos were taken Mr Kruchek concurred with the removal | Rod Falter to modify the IWCP to designate the extent of removal and to describe how fluids drained from the lines would be handled / NLT 6/19/01 |
| R122 | Determine the extent of removal of the rid welding vent hoses | Mr Kruchek concurred that the red hoses on the north wall could be removed at the duct, and filters attached in their places Mr Kruchek concurred that the red hose, fan and bower could be removed on the southwest wall (column J-7), and that the duct could e capped/taped | Rod Falter to modify the IWCP to designate the extent of removal, and filtering/capping NLT 6/19/01 |
